

SOUTHEAST ALASKA

TRANSPORTATION PLAN

Chilkat Indian Village

February 4, 2026

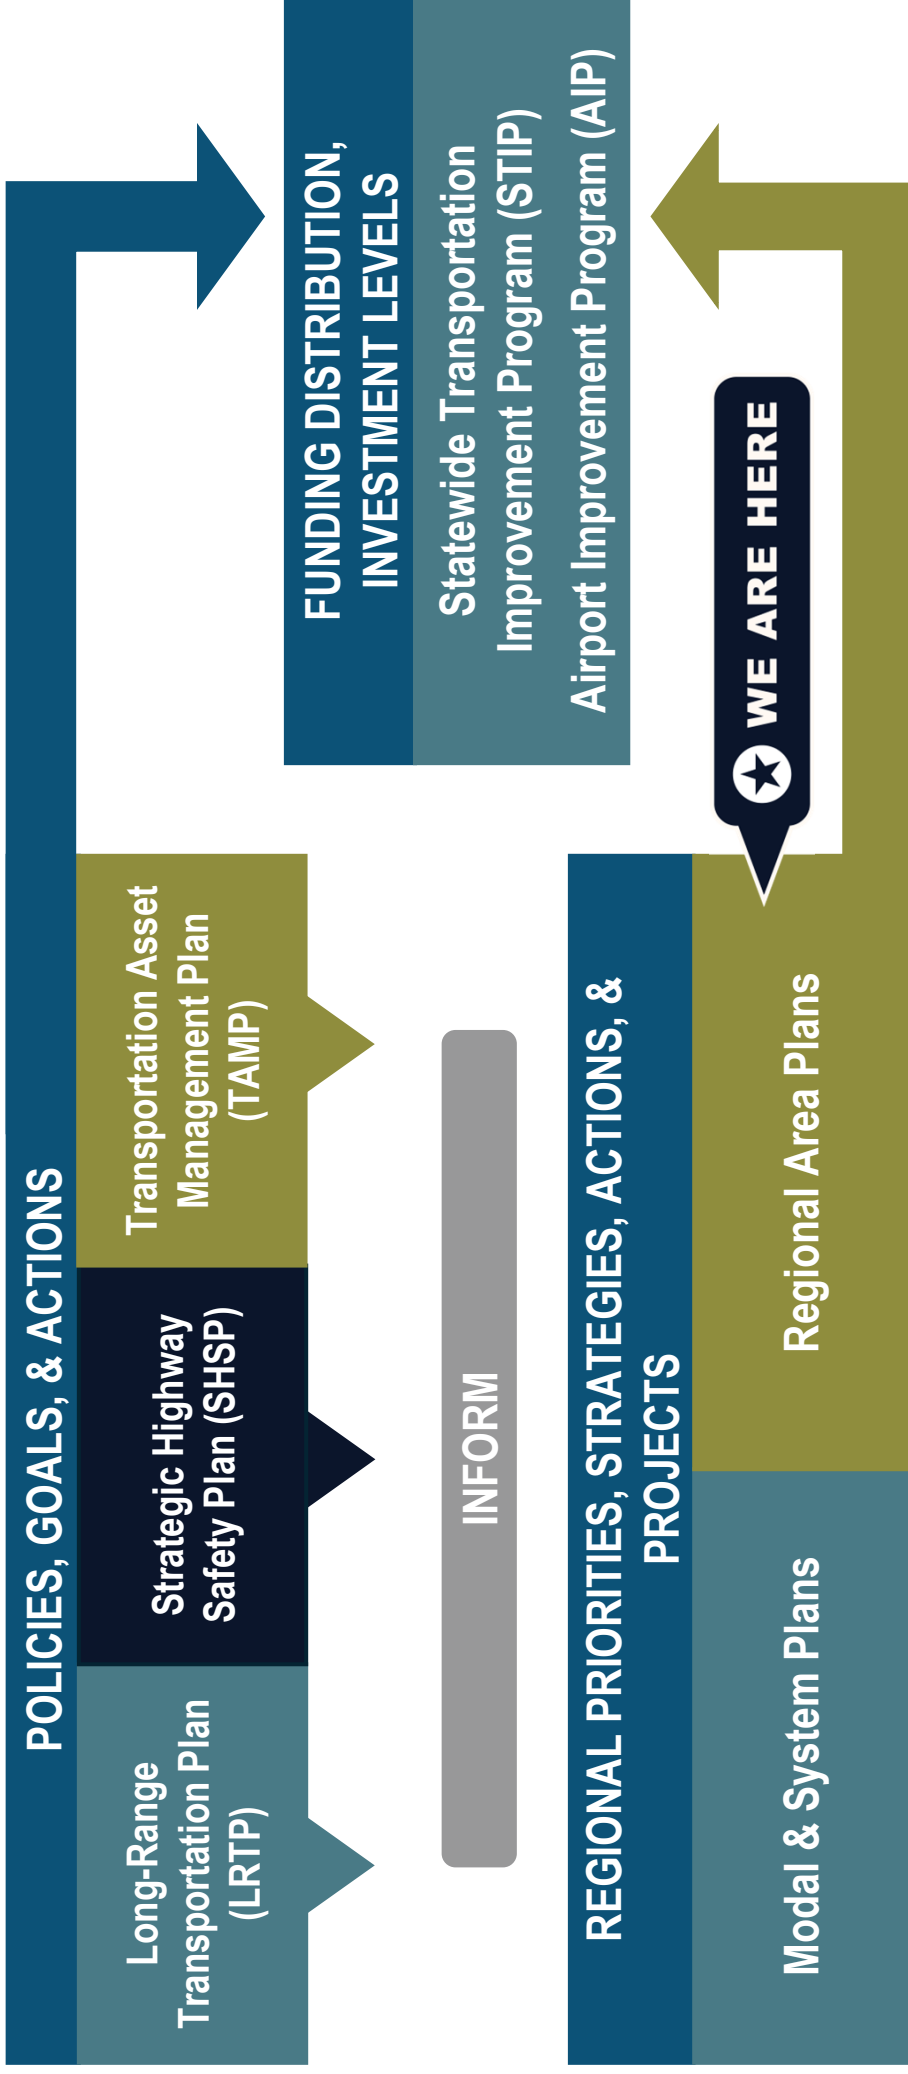

OVERVIEW

What is the Southeast Alaska Transportation Plan (SEATP)?

- The updated Southeast Alaska Transportation Plan will guide transportation improvements for the next 20 years. It looks at both travel between communities and local needs that affect the region.
- The plan covers all types of transportation - roads, ferries, airports, trails, to help direct future public investments.
- Area transportation plans identify community priorities and potential projects to meet those needs.
- These plans also help inform the Statewide Transportation Improvement Program (STIP), which funds transportation projects across Alaska.

PROPOSED VISION STATEMENT

An integrated land, air, and marine transportation system that provides safe and equitable access, fosters economic growth, provides efficient and cost-effective intermodal connections and remains resilient and well-maintained.

PROPOSED GOALS

1. **Safety and Accessibility:** Provide safe and equitable access to transportation for all communities in Southeast Alaska.
2. **System Reliability:** Improve the reliability of air, marine, and land transportation systems to ensure consistent and dependable service.
3. **Cost-Effective System:** Strengthen intermodal connections between land, air, and marine modes to create an integrated and efficient transportation network.
4. **Economic Vitality:** Support regional economic growth by enhancing transportation infrastructure and services that facilitate commerce and tourism.
5. **Resilience and Preservation:** Support a transportation system that remains resilient to hazards and is maintained in a state of good repair for long-term sustainability.
